

How does it work?

- Downside Risk Protection with a Guaranteed Floor
- **Unlimited Upside Potential**
- Price bushels incrementally each day at the Guaranteed Floor or the daily close, whichever is higher, provided the market trades above the Lower Barrier.

Downside risk protection with **unlimited upside potential.**

Protect your downside risk, while still maintaining upside potential...

This model prices an even increment of bushels each day for a given pricing period at the Guaranteed Floor or the daily close, whichever is higher, provided the market continues to trade above the Lower Barrier. In the event, the lower barrier is touched, producer keeps the priced bushels and any remaining un-priced bushels price at the Guaranteed Floor.

Crossover Solutions allow producers to diversify the way they manage price risk.

Consider selling in small percentages up to 30% of your APH or your level of coverage for revenue based crop insurance by adding Crossover Solutions to help add discipline and diversity to your marketing plan.

Diversity

Futures Months Offered...

- Corn - All Corn Futures Months
- Soybeans - All Soybean Futures Months
- Wheat - All Wheat Futures Months

Service Fees:

- Varies with market Volatility
- Less applicable basis (relative to participating elevator's policy)

With today's volatile markets, it's hard to make a decision. Protect your downside and keep some upside potential open by utilizing Crossover Solutions.
