

**Crossover SOLUTIONS™**

**PREMIUM NT**

## How it works...

- **Increase your cash sale price**
- **Choose the premium or offer level that fits your needs**
- **Capture additional premium on a sale you make today by placing an offer to sell grain at a future date**

### Increase your cash sale today...

This model allows you to increase the cash price you receive today by placing an offer in the future to sell grain.

Crossover Solutions allow producers to diversify the way they manage price risk.

Consider selling in small percentages up to 25% of your APH or your level of coverage for revenue based crop insurance by adding Crossover Solutions to help add discipline and diversity to your marketing plan.

### Futures Months Offered...

- |          |                              |
|----------|------------------------------|
| Corn     | • All Corn Futures Months    |
| Soybeans | • All Soybean Futures Months |
| Wheat    | • All Wheat Futures Months   |

### Service Fees:

- No Service Fee
- You receive the premium

### Offer End Date(s)...(all are customizable)

Or choose a date customized for your operation...consult with one of our Risk Management Specialists for details...

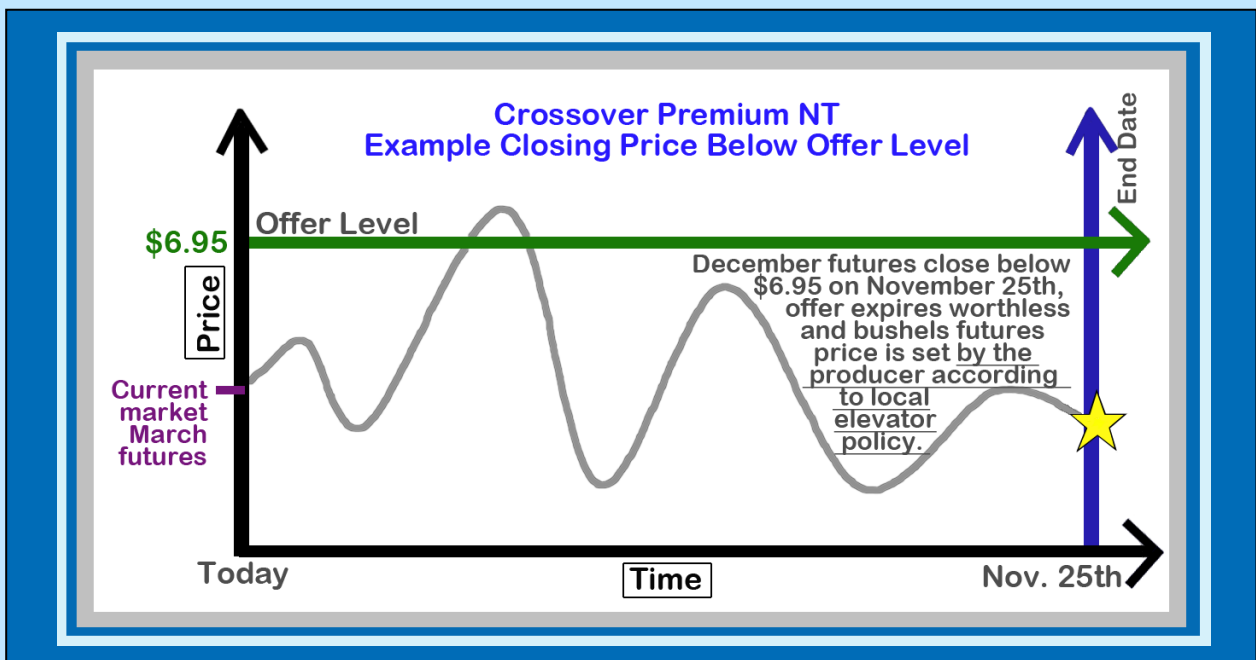

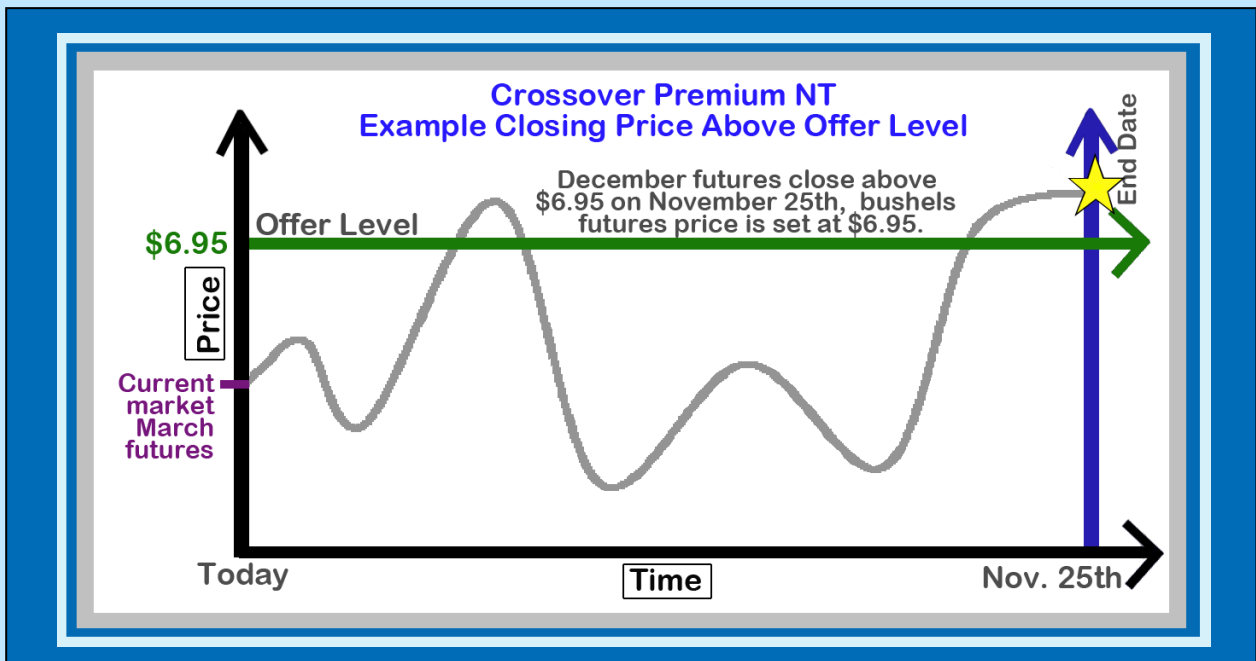

With today's volatile markets, it's hard to make a decision. Protect your downside and keep some upside potential open by utilizing Crossover Solutions.

Talk to your Risk Management Specialist for more details...
